Mr. Michael E. Bellot  
Remedial Project Manager  
U.S. Environmental Protection Agency (US EPA)  
77 W. Jackson Boulevard SR-6J  
Chicago, IL 60604-3590

**RE: Waukegan Harbor Remedial Action**  
**Notice of Semi-Annual Groundwater Sampling**

Dear Mr. Bellot:

Semi-annual groundwater monitoring for the Waukegan Harbor Remedial Action will occur on May 4/5, 1998. The sampling will be completed using the procedures provided in the Quality Assurance Project Plan for Operations and Maintenance and the existing project equipment.

Sampling of monitoring wells will begin after 8:00 a.m. to allow for field preparation activities, such as instrument calibration. Water levels for the monitoring wells will also be measured. Generally, the sampling begins at Slip No. 3 and proceeds to the West and then the East Containment cell wells.

Representatives from OMC, as well as contract employees will perform the sampling. If US EPA or the Army Corps of Engineers (US ACOE) oversight staff wishes to observe any particular activities or wells, please let me know so we may coordinate schedules with you.

I can be contacted at 847 / 689-5363.

Sincerely,

Anthony M. Montemurro, CHMM  
Environmental Specialist  
Outboard Marine Corporation

CC: Jim Mac Morran, USACOE  
Michael Rehor, OMC  
Jerry Willman, IEPA
